Local Firm Tops State's Real Estate Market In 2007

Portland, Or. -- Jan. 31, 2008 – Portland's own Realty Trust Group is home to the state of Oregon's top three producing agents for 2007 as well as the top performing office in the state for 2007, according to Trendgraphix, a national leader in real estate market research and analysis. Two of the top agents, Todd Prendergast and Kathy McNaughton, work out of Realty Trust's Pearl District headquarters, which ranked first in the state for 2007 dollar volume and total unit sales. The other top performer, Kristi Harnish, works out of Realty Trust's Lake Oswego office.

"It's a real honor to have these top producers working for us, and it makes everyone in the company proud," said Brian Pienovi, President of Realty Trust Group. "We always felt like we had the best agents in the business working for Realty Trust—and now we know we do."

Realty Trust Group is a locally-owned Real Estate company founded in December, 1997 by Portlanders looking to create a unique workplace for successful people with a shared passion for real estate. For more than ten years, Realty Trust Group has defied the notion that bigger is better—aiming instead to provide a local real estate option with an in service to others approach, dedicated to client service and intimate knowledge of the Portland market.
